

KG - II

Dear Parents

Sports play a crucial part in the student's growth and development. They help in the development of mental health and physical fitness of the body. Through participation in sports and games, a student gains various skills, experience and confidence that are helpful for developing their personality.

Keeping this in view we are organizing the Sports week in the school from 17th December to 23rd December where the children shall be participating in different games and athletic events. The screening shall be done according to their performance in the sports week. The students selected as finalists shall be participating in the races and competitions scheduled to take place in the Annual Sports Day 23rd December 2025.

*Make sure to send your children in proper House Uniform/Red Candy Uniform.

Regards

Principal
